

General Info/Special Events:

We are celebrating Earth Week by encouraging all students to wear blue and green on Monday, April 23 and to try and have litterless lunches for the week.

Many of our classes are trialing a new online math learning space called Mathletics. For those classes trying out the new program, a letter has been sent home with a username and password for you to trial it at home as well. We have access to the system for 2 weeks. We are looking to determine the best option for our school for next year. For more information, go to www.mathletics.com
